New Board Chairperson
Joe H. Vanderweide, Architect

George Barbee
Public Member

George Dean, P.E.
Professional Engineer Member

New Board Officers Elected

On July 30, 2004, the Board selected Joe H. Vanderweide to serve as the Chairperson for the next year. Vanderweide is an architect from Garden City who was appointed to the Board in 1994 by Governor Bill Graves. He has been re-appointed twice and is now serving his last four-year term. Vanderweide received his Bachelors of Architecture degree from Kansas State University in 1959. He presently is a member of Architecture Plus LLC in Garden City. He is a member and past president of AIA Kansas, and a corporate member of AIA. He is also a past member of the Professional Advisory Board in the Department of Architecture at Kansas State University. Vanderweide has served as the Vice-Chairperson, Chair of the Architect/ Landscape Architect/ Geology Committee, and Member of the Complaint Committee.

The Board elected other officers as follows: Thomas Mulinazzi, P.E., L.S. as Vice-Chairperson; Joseph Johnson, Architect, as Secretary; Cecil Kingsley, P.E. as Chairperson of the Engineer/Land Surveyor Committee; and Philip Meyer, L.A. as the Chairperson of the Architect/Landscape Architect/Geology Committee. All will serve for the 2004-05 year.

Barbee and Dean Appointed to Board

George Barbee and George Dean, P.E. were appointed by Governor Kathleen Sebelius to the Board on July 1, 2004. Barbee will serve as the Public Member while Dean takes a Professional Engineer position. Both have four-year terms that will expire June 2008.

George Barbee lives in Topeka. He retired on May 30, 2003, having served 31 years as the Executive Director of the American Council of Engineering Companies of Kansas. Barbee has held officer positions of numerous civic and engineering organizations at national and state levels. He is currently the Director of Client Development for CAS Construction, a company headquartered in Topeka that constructs water and wastewater treatment plants.

George Dean, P.E. is from Wichita. He retired from Beech Aircraft, Missile System Division where he was project engineer on guidance and controls. He has a BS in EE from the University of Kansas and a MS in EE from Wichita State University. Dean served 20 years in the Kansas House of Representatives and a Board member of Kansas Technology Enterprise Corporation. He has been International Treasurer, Midwest Regional Director, and Chairman of the Wichita Section of the Institute

of Electrical and Electronics Engineers (IEEE). He was co-founder for the Wichita Council of Engineering Societies.

AGENCY MISSION

To provide maximum protection of the health, safety and welfare of the people of Kansas by assuring that the practice of engineering, architecture, land surveying, landscape architecture and geology in the state is carried out only by those persons who are proven to be qualified as prescribed by the statutes and rules and regulations of the Board of Technical Professions.

Programs Established To Assist With Agency Mission

Licensing, monitoring and regulating of technical professions:

- Examine and certify Intern Engineers
- License, monitor and discipline Engineers
- License, monitor and discipline Architects
- License, monitor and discipline Land Surveyors
- License, monitor and discipline Landscape Architects
- License, monitor and discipline Geologists
- Licensing of Professional and General Corporations

DISCIPLINARY ACTION TAKEN BY THE BOARD

by Mark L. Bennett Jr.,
Board Attorney

IN THE MATTER OF DONALD W. OSBOURN

Summary:

In April 2003, the Kansas State Board of Technical Professions received an inquiry from a Kansas licensed engineer who had been hired by a franchisee to review a set of drawings for an HVAC system, which drawings had been sealed and signed by Donald W. Osbourn, a Kansas licensed architect but which had not been signed or sealed by a Kansas licensed engineer. Upon receipt of that letter, the Complaint Committee of the Board had the matter investigated by one of its licensed professionals who had agreed to perform investigative services. Upon completion of the investigation, the investigator provided the Board with a report. Based upon the letter of inquiry and the investigative report, the Complaint Committee directed that a formal complaint be filed against Mr. Osbourn, which alleged that he had engaged in the unlicensed practice of engineering in the preparation of the mechanical and electrical plans for the HVAC and electrical systems for the project.

Mark L. Bennett Jr.,
Board Attorney

Board Action:

On March 11, 2004, a hearing on the complaint was held before a hearing panel of the Kansas State Board of Technical Professions. The hearing panel determined that Mr. Osbourn had been retained to provide architectural services for the restaurant and that he had gone beyond the practice of architecture when he placed his architect seal and signature on a set of mechanical engineering plans for an HVAC system for the project. While Mr. Osbourn had placed a disclaimer on the plans that provided "information shown on this drawing has been furnished by the owner and the contractor shall be responsible for the compliance with all building codes and ordinances" such a disclaimer was not sufficient to relieve Mr. Osbourn from the claim that he had engaged in the unlicensed practice of engineering. The hearing panel noted that "a member of the general public reviewing the mechanical engineering plans that contained respondent's seal would not know that respondent was not the designer of the HVAC system reflected in those plans. Respondent's attempted disclaimer was inadequate to disclaim responsibility for preparing the HVAC plans."

Panel Decision:

The Panel Order provided that "while respondent violated Kansas law, there is no evidence that the violation was intentional or willful. Therefore, a fine is not necessary to deter the conduct of a licensee who has practiced many years without disciplinary incident. However, the Board has incurred Attorney fees and investigative costs in prosecuting this matter for which the respondent is liable, pursuant to K.S.A. 74-7039. Therefore, the respondent is reprimanded for violating K.S.A. 74-7026 and K.A.R. 66-6-4 and ordered to pay the costs incurred by the Board in the amount of \$3,271.26 within 90 days of the date of this order." Said order was entered on the 10th day of May 2004.

Subsequent to the entry of that Initial Order, Mr. Osbourn, through his attorney, filed a Petition For Review of Initial Order on May 27, 2004. Thereafter, on July 30, 2004, the Kansas State Board of Technical Professions considered Mr. Osbourn's Review of the Initial Order and at that time was advised by Mr. Osbourn's attorney that they were withdrawing their Petition for Review of Initial Order. The Board then issued its Final Order denying Mr. Osbourn's request that he be allowed to make 12 monthly installments in payment of the amount identified in the Initial Order and respondent was ordered to pay the costs incurred by the Board in the amount of \$3,271.26 within 90 days from the 9th day of August 2004.

Status:

As of August 16, 2004, the payment has not been received by the Board Office.

IN THE MATTER OF DEREK KLINKENBORG

Summary:

In April 2004, the Kansas State Board of Technical Professions became aware of the fact that Derek J. Klinkenborg, who is licensed as a land surveyor in both the State of Missouri and the State of Kansas, had entered into a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects. In that settlement agreement, Mr. Klinkenborg stipulated and agreed that in drafting an easement lease for a client, he failed to conduct a field survey of the site prior to drafting the easement but instead, drafted the access easement and lease description by overlaying the easement description over his easement description on a prior survey prepared by Kaw Valley Engineering. Mr. Klinkenborg also admitted in the Missouri proceeding that his certification that the survey was made on the ground under his supervision was false, since he knew that the survey had not been made on the ground under his personal supervision.

K.S.A. 74-7026 provides in part that the Kansas Board shall have the power to reprimand or otherwise discipline, suspend or revoke the license of any person who is found guilty of any misconduct in the practice of any technical profession or the violation of any rules of professional conduct adopted and promulgated by the Board or violation of rules and regulations adopted by the Board for the purpose of carrying out the provisions of the act governing the practice of technical professions. Additionally, K.S.A. 74-7029(8) makes it a Class A misdemeanor for any person to violate any of the provisions of the Kansas Licensure Act or any rule and regulation promulgated by the Board in conformance with the act. K.A.R. 66-6-4(f) provides that in all professional reports, statements and testimony, a licensee shall be completely objective and truthful and include all relevant and pertinent information therein.

Board Action:

As a result of the foregoing facts, Mr. Klinkenborg entered into a Settlement Agreement and Consent Order with the Kansas State Board of Technical Professions thus avoiding the necessity of a formal hearing. The terms of settlement in that agreement provided as follows:

1. That Respondent's Kansas Land Surveyors license #LS 1151 is hereby placed on probation for a period of three (3) years commencing March 4, 2004 and terminating on March 3, 2007. During the disciplinary period, respondent may practice as a professional land surveyor in the State of Kansas provided that respondent adheres to all the terms stated herein.

2. The terms and conditions of the disciplinary/probationary period are as follows:

A. Respondent shall keep the Board apprised at all times in writing of his current addresses and telephone numbers at each place of residence and business. Respondent shall notify the Board in writing within 10 days of any change in this information.

B. Respondent shall timely renew his Kansas license and timely pay all fees required for license renewal and comply with all other requirements necessary to maintain his license in a current and active status.

C. If at any time during the disciplinary period respondent changes his residence from the State of Missouri, ceases to be currently licensed as a professional land surveyor in either Missouri or Kansas, fails to timely pay all fees required for license renewal, or fails to keep the Board advised of all current places of residence and business, the time of absence, unlicensed status, delinquency in paying fees for license renewal, or unknown whereabouts shall not be deemed or taken as any part of the disciplinary/probationary period.

D. Respondent shall comply with all of the provisions of K.S.A. 74-7001, *et seq.*; all rules and regulations of the Board; and all local, state and federal laws. "State" as used herein refers to the State of Kansas and all other states and territories of the United States.

E. Respondent shall appear before the Board or one of its representatives for a personal interview upon the Board's request.

F. Respondent shall accept and comply with unannounced visits from the Board's representatives to monitor his compliance with the terms and conditions of this Settlement Agreement and Consent Order.

G. Respondent shall submit written reports to the Board no later than Jan. 1, April 1, July 1, and Oct. 1 of each year stating truthfully whether there has been compliance with all of the conditions of this Settlement Agreement and

Consent Order. It is respondent's responsibility to ensure that the reports are submitted by the dates set forth above. The first such report shall be received by the Board on or before July 1, 2004.

H. Respondent shall submit to the Board no later than Jan. 10, April 10, July 10 and Oct. 10 of each year of the disciplinary period a comprehensive list of all Kansas land surveying projects worked on for the previous three months. Such list shall identify the projects worked on by date, client, location of the project and a brief description of the project and work performed. When requested by the Board, respondent shall submit without delay a copy of all documents related to a specific project(s) for review by the Board, including, but not limited to, drawings, calculations and notes. If no work is completed during the reporting period respondent must so advise the Board in writing in the same time frame and manner as set forth above in this paragraph. It is respondent's responsibility to ensure that the lists are submitted by the dates set forth above. The first such list shall be received by the Board on or before July 10, 2004.

3. Respondent shall pay the Board's expenses and attorney fees incurred in the prosecution of this matter in the amount of \$300 within ten days after signing this agreement. Status: Mr. Klinkenborg has paid the \$300 assessed cost. Additionally, Mr. Klinkenborg has filed reports required at this time.

IN THE MATTER OF RHA & A CONSULTING ENGINEERS

Summary:

In the fall of 2003, Robert H. Anderson, a/k/a RHA & A Consulting Engineers, entered into an agreement with the City of Wathena to provide engineering work for the City of Wathena. RHA & A did not hold a certificate of authorization to practice engineering in the State of Kansas. Upon learning of this occurrence, the Complaint Committee of the Board directed its attorney to prepare and propose a Settlement Agreement and Consent Order to dispose of the matter without the necessity of a formal hearing.

Board Action:

As a result of the Complaint Committee's directive, a Settlement Agreement and Consent Order was prepared and submitted to RHA & A Consulting Engineers, which was accepted by RHA & A. The terms of settlement provided the following:

1. The Respondent, RHA & A Consulting Engineers, admit that it held itself out as entitled to practice, offered to practice or practiced in the State of Kansas the technical profession of engineering during the year 2003 and further admits that at all times relevant thereto it was not licensed

Disciplinary Actions/to page 4

Disciplinary Actions/From page 3

to practice engineering in the State of Kansas.

2. Respondent shall pay a civil fine of \$1,000 in this matter plus expenses incurred by the Board in the amount of \$380 for a total of \$1,380, the said fine and expenses to be paid forthwith.

3. Respondent will forthwith cease and desist from offering to practice, holding itself out as authorized to practice or practicing the technical profession of engineering in the State of Kansas until such time as it is licensed to do so or hold a certificate of authorization to do so. Additionally, Respondent will forthwith cease and desist from using any letterhead, business cards, documents or advertisements in the State of Kansas which in anyway refer to itself as an engineer or a company holding a certificate of authorization to provide engineering services until such time as it has been licensed or certified to do so.

Status:

RHA & A Consulting Engineers has paid the total amount of \$1,380 and has fulfilled all of the terms of the Settlement Agreement and Consent Order that he entered into and the case file has been closed.

IN THE MATTER OF BURT WEST AND ROBINSON SERVICES

Summary:

In September 2003, the Kansas State Board of Technical Professions received a report of alleged violation from a Kansas licensed land surveyor. That report indicated that Burt West and Robinson Services were practicing or offering to practice land surveying by preparing oil field surveys and were holding themselves out as authorized to perform land surveying by verbal claim, signs, advertisements, letterhead and business cards. As a result of receiving this information, the Complaint Committee of the Board had an investigation of the allegations performed by a Board investigator, licensed as a land surveyor in the State of Kansas. Following the receipt of the report of investigation, the Complaint Committee of the Board directed its counsel to prepare and propose a Settlement Agreement and Consent Order to Mr. West and Robinson Services.

Board Action:

A proposed Settlement Agreement and Consent Order was prepared by the Board's counsel and submitted to Mr. West, Robinson Services and their attorney for consideration. The settlement agreement was then approved and signed by both Mr. West, individually and on behalf of Robinson Services and by a representative of the Board. The terms of settlement provided as follows:

1. The Respondents, Burt West and Robinson Services, do not contest allegations that they have held themselves out as entitled to practice, offered to practice or practiced in the State of Kansas the technical profession of land surveying in performing the Bloom surveys referred to above.

2. Respondents, Burt West and Robinson Services, will forthwith cease and desist from practicing, offering to practice or holding themselves out as authorized to practice the technical profession of land surveying in the State of Kansas until such time as Burt West has become licensed to do so and Robinson Services has obtained a certificate of authorization. Additionally, Burt West and Robinson Services will immediately cease and desist from the use of letterhead, business cards, phone book advertisements or any other document which advises potential customers or the general public that they are engaged in the surveying profession.

3. This Settlement Agreement and Consent Order shall not be construed as preventing Respondents from performing services in the future exempt under the provision of K.S.A. 74-7034.

4. Respondents shall pay a fine of \$500 in this matter plus expenses incurred by the Board in the amount of \$420 for a total of \$920, the said fine and expenses to be paid to the Kansas State Board of Technical Professions no later than 30 days following receipt of this revised proposed Settlement Agreement and Consent Order by the Respondents' counsel, Philip Ridenour.

Status:

Mr. West and Robinson Services have paid the total amount of \$920.00 and have fulfilled all of the terms of the Settlement Agreement and Consent Order that was entered into and the case file has been closed.

Report of Alleged Violation Procedure

An important part of being a professional is helping to uphold the high standards of the profession. *Webster's Dictionary* defines a profession as "a calling requiring specialized knowledge and often long and intensive academic preparation." Similarly, a professional is one who is "characterized as conforming to the technical or ethical standards of a profession." The regard with which a profession is considered is a direct result of the manner in which those professionals engaged in it conduct their practice. With the title of professional comes the often very difficult responsibility of ensuring that the high standards of the professionals are maintained.

The "Rules of Professional Conduct," K.A.R. 66-6-4(p), states..." Each licensee with knowledge of any

alleged violation of K.S.A. 74-7001 et seq. or the rules and regulations promulgated and adopted by the board shall: (1) report the alleged violation to the board; and (2) cooperate with the board furnishing information or any assistance that may be required." To make this process easier, the following report of alleged violation form may be used. This use is not mandatory, however, and in many cases a written letter explaining the problem may provide even more information.

Inquiries may be sent to the Kansas State Board of Technical Professions, 900 SW Jackson, Room 507, Topeka, Kansas 66612-1257. It is important that the individual provide his or her name and address, as the Board cannot investigate anonymous inquiries.

KANSAS STATE BOARD OF TECHNICAL PROFESSIONS REPORT OF ALLEGED VIOLATION FORM

1. Your Name, Address, & Phone Number:

2. Address of the building or project:

3. Name & address of person being reported:

4. Name of owner of project (if known):

5. Name of construction company involved in project (if known):

6. Please describe why you believe there may be a violation of our laws concerning this project:

7. Please provide any other information you believe is relevant to your complaint:

Date: _____ Signature: _____

Dwight M. Bonham, Past Board Member Dies

Mr. Bonham was originally licensed in Kansas in 1953 as a professional engineer. He held the professional engineering license until 1992. He became licensed as an architect in 1956 and was licensed until 2002.

Mr. Bonham became a member of the Kansas State

Registration and Examining Board of Architects in June 1968. He served as a member through August 1975. From June 1970 he was the Secretary-Treasurer of the board.

Mr. Bonham died in June 2004.

Mark A. Duncan

Mark A. Duncan, 39, Topeka, died Wednesday, July 7, 2004, in Topeka. He was born Feb. 6, 1965, in Wellington, to Gerald and Norma Armstrong Duncan. Mark graduated from Emporia State University in 1987, earning a bachelor's degree in earth science. He married Lisa Brown on Sept. 8, 1990, at Sacred Heart Catholic Church in Emporia. Mark worked at the Kansas Department of Health and Environment as the chief of compliance and enforcement for the Bureau of Waste Management. He was also the owner of 2nd Chance Woods. Mark was the Kansas representative at the Midwest Environmental Enforcement

Association, a licensed geologist, and soccer coach for several years. Mark was a loving husband, father, son, brother and friend. Surviving are his wife, Lisa, a daughter, Kimberly Nicole Duncan, and a son, Michael Alan Duncan, all of Topeka; his parents, Gerald and Norma Duncan, Saffordville; a sister, Jeanie Copeland, Wellington; and a brother, Gary Duncan, Oklahoma City. Memorial donations may be made to the Mark Duncan Memorial Fund and sent in care of Commerce Bank and Trust. Published in the Topeka Capital-Journal on 7/10/2004.

Ret. Col. Elwin Sidney "Woody" Elswood

Ret. Col. Elwin "Woody" Sidney Elswood, 82, Leawood, KS, passed away July 4, 2004. Funeral service were July 7, 2004 in Kansas City, Mo., with burial in Floral Hills Cemetery. The family suggests memorial contributions to the Woody Elswood Memorial Fund c/o the church. Woody was born February 20, 1922, in Tremonton, Utah, to Sidney and Viola Elswood. He served his country in WWII in the Army Air Corps, and was decorated with the Distinguished Flying Cross. Woody retired from the military in 1976 as a Colonel. Woody graduated in 1951 from K State with a degree in Architectural Engineering and Architecture. He was a partner in Elswood, Smith & Carlson architectural firm,

and a building inspector for Mission, Kan. He was head of Architectural Review for Halbrook Farms & Glen Eagles Subdivisions. Woody was the scout master for Troop 381, a member of the Overland Park Lions Club, and an elder at the Red Bridge Church of Christ. Woody was preceded in death by his parents and sister Beverly Terry. He is survived by his wife of 59 1/2 years, Nathalie Combest Elswood; children Janet Courson and her husband Jerry, and David Elswood and his wife Karen; brother Robert Elswood; sisters Diana Johnson and his twin sister Elaine Thompson; six grandchildren; and four great-grandchildren. Published in the Kansas City Star on 7/6/2004.

Tex L. New L.S. 1935-2004

Tex L. New of Overland Park, Kan., passed away June 14, 2004. Funeral services were Wednesday, June 16, 2004 in Overland Park, Kan. Interment was in Lenexa Cemetery, Lenexa, Kan.

Mr. New was appointed to the Kansas State Board of Technical Professions in July 2000. He retired as an owner, Corporate Secretary and Principal in charge of Surveying, from the firm of Shafer, Kline & Warren, Inc. in February 1988 after 44 years. He was an investigator and expert witness for the board, since 1984. He was Past President of the Kansas Society of Land Surveyors and was elected to a Life Membership in 1999. He was licensed as a Land Surveyor in Kansas and Missouri.

He is survived by his wife of 43 years, Mildred of the home; son, Tim L. New and his wife, Jeannie of Overland Park, Kan.; daughter, Jane New of Columbus, Ohio; brother, Robert New and wife, Jean of Overland Park, Kan.; sister Patricia Stevens and husband, Gary of Olathe, Kan.; and three grandchildren, Jacob, Natalie and Sophia New of Overland Park, Kan.

A Surveyor's Tribute

*You never had to ask for his opinion
He always volunteered to let you know
You didn't have to peel him like an onion
He always let ALL his feelings show.*

*A lot of people thought he was pugnacious
I count myself among that lot. Do you?
He was also counted mighty damn tenacious
Like a bulldog with a bone. You know its true.*

*He was prickly and he liked to ruffle feathers
He'd take on anyone. He didn't care
He'd take 'em on in calm or nasty weather
He was always tough and he was always fair.*

*I liked him best 'cause he was a surveyor
He knew the level and he knew the square
He'd shake your hand and he would have your measure
You couldn't fool him and you didn't dare.*

*Now, Tex is with the Good Lord far above
Let's bow our heads and chuckle at that thought
'Cause we all know what Tex is going to love
He'll get to survey every angel's lot.*

*We'll all have to learn to live without him
It'd be nice to have a choice, but look, we don't
So, let's all cowboy up. Don't look so grim
But if you cry, he won't mind. No he won't.*

*Larry D. Graham, L.S.

National Society of Professional Engineers Names Local Engineer a 2004 Fellow Member

The National Society of Professional Engineers (NSPE) has named Lawrence Hole, P.E., F.NSPE, to its 2004 class of Fellow Members. The Fellow membership grade honors those active NSPE members who have demonstrated exemplary service to the profession, the Society and the community.

"The 2004 class of NSPE Fellows exemplifies the attributes for which the Fellow recognition program was initially conceived," said Monte Phillips, P.E., Ph.D., F.NSPE, the chairman of the executive committee of the Council of Fellows. "Achieving NSPE Fellow status is an honor reserved for only a select few NSPE members who have demonstrated truly outstanding service to the engineering community. As chair of the Council of Fellows, it is my honor and privilege to be associated with such an outstanding group."

Hole lives in Wichita, Kan., and is employed by the Boeing Company. He has been a member of NSPE since 1985.

Note: Larry Hole just completed six years on the Board of Technical Professions and was the Chairperson for 2003-04.

Rick Ensasz, P.E. presents Larry Hole, P.E. his NSPE Fellow Membership.

NCARB 2004 Annual Meeting and Conference

The NCARB 2004 Annual Meeting and Conference was held June 23-26 in Portland, Oregon. Representatives from the Kansas Board of Technical Professions attending were Stan Peterson, Architect; Joe Johnson, Architect; and Jean Boline, Board staff.

Member Board Executives met on Wednesday morning to discuss common concerns and to hear presentations titled "An Overview of the Professional Conduct Committee Process" and "Reciprocity Impediments." The afternoon was spent in Regional meetings. Region V, of which Kansas is a part, heard reports from Mark Aspaas, Region V Chair from South Dakota, and Stan Peterson, Region V Director. Delegates discussed the upcoming resolutions to be voted on and changes in the Region V By Laws and Rules and Regulations.

The first Business Session was held Thursday. Delegates heard reports from the President, Executive Vice President, Secretary and Treasurer. The keynote presentation was "Portland Architecture: Designing a Self-conscious City" presented by Chet Orloff. After lunch and laughter provided by comedian Dave Anderson, delegates heard candidate speeches. The remainder of the afternoon was spent in workshops. Topics presented included ethics for member board members, strategic plan, and reciprocity impediments.

Friday morning's agenda included the second business session during which delegates heard a presentation on the ARE Version 3.0 and held a town meeting. The business session was followed by workshops on firm practice impediments and international reciprocity. Stan Peterson was a presenter on the international reciprocity panel. Immediately following lunch a second Region V meeting was held to complete the business of the region.

The Saturday business session included election of officers, presentation of awards and action on resolutions. Delegates acted on seven resolutions. Following is information on those resolutions.

Resolution 04-1
Model Law Amendment - Prototype Building Documents
The resolution was approved.

The Debut of a Uniform, National "Rolling Clock" for the ARE

After spirited discussion during NCARB's 2004 Annual Meeting, a majority of Council Member Boards passed a resolution officially creating a "rolling clock" standard for the Architect Registration Examination (ARE). Under the terms of the rolling clock, which will be officially implemented on Jan. 1, 2006, candidates for the ARE must pass the nine-division exam within five years. Three transitional rules, which are noted below, will guide this process.

Background

NCARB's Procedures & Documents Committee, led by Kevin Monson, AIA, of Iowa City, Iowa, recommended a rolling clock after extensively studying the issue. By establishing this standard, NCARB Member Boards recognize that the practice of architecture changes over time. Likewise, ARE content, its format, and its administration can change over time as well.

In its statement of support, the P&D Committee noted, "Requiring that all divisions be passed within a reasonable period will better assure that the ARE remains a valid measure of the level of competence necessary to independently practice architecture. While some changes may occur within any five-year period, there is a lower likelihood that applicants will be tested under different forms of administration and methodologies than is the case currently with applicants having unlimited time in which to pass all divisions."

The Chauncey Group International, the Council's test development and operations consultant for the ARE, also supports the rolling clock, suggesting that it is psychometrically appropriate especially as the exam continues to evolve. Unlike other professions (including the legal and accounting fields), architecture did not have a uniform, national rolling clock for examination prior to the passage of this resolution.

Transitional Rules

Three basic rules will guide the implementation of the rolling clock:

- For applicants who have passed all divisions of the ARE by Jan. 1, 2006, regardless of the time taken, such applicants will have passed the ARE.
- For applicants who have passed one or more but not all divisions of the ARE by Jan. 1, 2006, such applicants will have five years to pass all remaining divisions. A passing grade for any remaining division shall be valid for five years, after which time the division must be retaken if the remaining divisions have not been passed. The five-year period shall commence after Jan. 1, 2006, on the date when the first passed division is administered.
- For applicants who have passed no divisions of the ARE by Jan. 1, 2006, such applicants shall be governed by the above five-year requirement. The five-year period shall commence on the date when the first passed division is administered.

What's Next

Long before NCARB introduced this resolution, nine Member Boards already had implemented a rolling clock requirement, among them Texas, Delaware and South Carolina. NCARB's adoption of a national rolling clock requirement will implement a uniform standard for all jurisdictions, thus facilitating reciprocity. For those states with a rolling clock already in place, the individual requirements can be eliminated, thereby relieving them of some record-keeping burdens, while respecting the intent of their current standards.

For more information about the ARE rolling clock, please contact NCARB at 202/783-6500.

CONTINUING EDUCATION OFFERINGS

Home Study. ENGL 362 Technical Writing.
Spon: University of KS Continuing Education, 1515 St. Andrews Dr., Lawrence KS, 66047. Contact: Jean Redecker, 877-404-KUCE, (toll-free) 785-864-9193, email: jredecker@ku.edu. Key faculty: Dr. Michele Eodice. Aud: This three hour online college level course, which can be taken on a non-credit basis, examines the general principles common to all technical writing and practical exercises in writing abstracts, reviews, letters, proposals, short reports and long reports. Fee: \$489.65. Deadline: No deadline; enrollment is continuous. Contact hours: 130 credit/45 non-credit. website: www.kuce.org/isc.

Civil, Electrical & Manufacturing short courses & conferences.
Spon: The University of Kansas School of Engineering & Consulting Education, 1515 St. Andrews Dr., Lawrence KS, 66047-1625. Contact: Mary Heberling, 785-864-3969, email: mheberling@ku.edu. web: www.kuce.org. Aud: Engineers interested in civil, electrical & manufacturing logistical topics. Description: Short courses offered in How to Lay Out a Warehouse and other logistic topics; LRFDF video set - 28 hr. training course with reference notes; Civil Engineering PE Exam Review Course; conferences on Asphalt Paving, Structural Engineering, Environmental Engineering and Transportation Safety; In-House training developed for clients as requested. Fee: Varies. Contact Hours: 6-33.

Engineering Distance Master's Degrees.
Spon: Kansas State University, Division of Continuing Education, 245 College Court Building, Manhattan, KS 66506. Contact: Ellen Stauffer, 785-532-2562, email: informationdce@ksu.edu. Aud: Individuals with bachelor's degrees in engineering, computer science, or related field. Description: K-State's College of Engineering and Division of Continuing Education offers Master's Degrees via distance education in electrical, chemical, civil, mechanical, and software engineering, and engineering management. Courses

may also be taken to satisfy professional licensing continuing education requirements. Visit our website at: <http://www.dce.ksu.edu/dce/engg>. Fee: Varies. Deadline: Varies. Contact Hours: Varies.

Engineering Professional Development Online Seminars.
Spon: Kansas State University, Division of Continuing Education, 245 College Court Building, Manhattan, KS 66506. Contact: Ellen Stauffer, 785-532-2562, email: informationdce@ksu.edu. Aud: Engineers and other professionals needing contact hours to satisfy professional licensing requirements. Description: A distance education professional development seminar series providing PDHs or CEUs on a variety of topics including the Environment, Water Resources, Ethics, Problem Solving and Design, Hazardous Waste, and others. Visit our website at <http://www.dce.ksu.edu/dce/engg/noncredit/>. Fee: Varies. Deadline: N/A. Contact hrs.: Varies.

Approved Online Continuing Education for Engineers & Surveyors.
